

Do You Know Your Future Resident?

Are you facing:

- **Below market rents?**
- **Poor retention?**
- **Underperforming cash flow?**

Electric Vehicle (EV) Charging Stations are the future!

Per Multifamily Executive, “EV charging stations have moved from being an amenity to a necessity...”

According to a Multifamily Design+Construction survey, EV charging is the third most popular convenience amenity upgrade.

PricewaterhouseCoopers (PwC) forecasts that the EV charging market will grow tenfold to by 2030.

A recent McKinsey Report said 50% of all new car sales will be electric by 2030; 80% of all charging taking place in homes.

Give us 15 minutes and we'll show you how this must-have amenity helps improve all of the above!

Ask us how an on-site Charging Station PAYS FOR ITSELF!

CCS installs units and has partnered with the **optimal** equipment provider for multifamily and commercial properties. One call does it all!
